**EXCELLENT AND FRESH
COMPLEMENT**

GRASS SEEDS

PROMOTES
THE DIGESTIVE
TRACT

100%
NATURAL

HELPS EXPELL
HAIRBALLS

- Composed of **grass seeds**, they come in two versions: Seed bag or ready-to-use tray.
- It is an **excellent and fresh supplement** that favors the balance of your cat's intestinal flora.
- It gives your pet a **detox** alternative, as it contributes to proper digestion and **eliminates hairballs**.
- It can be planted at any time of the year.

PRESENTATIONS:

- 2,8 OZ bag
- Tray with substrate and seeds (2,8 OZ) ready to use

MODE OF USE

The seeds should be sown in a large container, at least 5,9 inch in diameter and 1,96 inch deep, placed in an indoor or outdoor environment, provided that it is a bright and warm place. Spray superficially with water, without flooding, as many times as necessary, maintaining moisture in the soil.

When the grass reaches 1,57 to 1,96 inch in height, you can give it to your cat.

INGREDIENTS

Grass seeds
